Carole Morris, Assistant City Administrator  
Jason Nunemaker, Chief Administrative Officer  
Councilmember Denise Horland (Zoom)  
Councilmember Nick Sortal (Zoom)  
Councilmember Timothy Fadgen  
Amy C (Zoom)  
Kiamesha Ausmore-Reid, City Clerk Admin Asst  
Shakeela Robinson (Zoom)  
Lt. Rudy Brown, Police  
Chad Fowler, Police Chief  
Officer Ventura, Gateway Police

**2. INTRODUCTIONS**

Members went about the room and introduced themselves.

**3. APPROVAL OF OCTOBER 20, 2021 GATEWAY BOARD MINUTES**

Minutes approved by unanimous consent

**4. GATEWAY /FINANACIAL REPORT:**

- CRA/Gateway Expenses

Dan Holmes gave a recap on the CRA and Gateway Expense explaining what it is and what the money is used for. CRA may get investments for infrastructures and beautification.

- CRA/Gateway Funding available for Projects

Dan Holmes: At some point the CRA is going to sunset and there is about 9 years of funds left.

Mr. Hooley, Jr: Is it very important for the board to understand the difference between the expenses and funding. Although when the CRA/Gateway expenses and funding were created the Gateway board was created at the same exact time. They maybe separate and distinct in a sense but they are interwoven into each other. As the Gateway Board, it is very important that we have a say as to what happens with this CRA.

Dan Holmes: How the CRA funds/Gateway funds work together and the current balance. Well Gateway has an operating component and a construction component; it is sitting at about 2.1 million in the Gateway. See below handout:

Gateway funds dedicated landscaping/maintenance crew to Gateway District - annual cost of approx \$200K

## 5. DEVELOPMENT UPDATE

- Project Pipeline & Properties for Sale - listed/mapped

Glen Hall introduces the google map that allows the public to view all the Gateway properties online. The link provides the appicate name, address, market value, crimes etc. see below:

<https://www.google.com/maps/d/edit?mid=1HJkrSB9DkPuTVO5ZmFRNYH-n4V1H1VGe&usp=sharing>

- Proposed CRA Projects ("wish list")

- ULI Leadership Institute 2022 Project

- **Where along the 441 corridor should efforts be concentrated to encourage the economic development and increased private sector investment of a type that is inclusive and considerate of the abutting single-family residential districts and newer multifamily being introduced to the area?**
  - Are any land uses changes/specific policy changes needed to make the area more attractive to innovative retail uses for commercial buildings that are predominantly situated on narrow lots.
  - What conditions or incentives should be addressed/put in place to attract private sector driven redevelopment of underutilized or aging commercial properties.
- **How can the Corridor best serve its existing residents & newer residents of a younger demographic?**
  - What planning practices and/or policies should be implemented to facilitate development that meets the needs of existing residents who live in residential districts abutting the corridor and newer/younger residents occupying multifamily properties being completed.
  - Are there specific public outreach practices that should be implemented to facilitate clear communication of what uses area residents envision and incorporating said vision of desired uses in the plan review process?
  - How does the District best incorporate Outdoor Uses such as outdoor dining to help create a sense of place?
- **What conflicts exist between the commercial activities along the corridor and the adjacent residential neighborhoods/newer multifamily and how can they be mitigated.**
  - What type of redevelopment is best suited for those commercial business activities of a nature that creates conflict with abutting single-family & newer multifamily housing.
  - What planning practices or policies are recommended to address existing nonconforming uses?

- **Highest and Best Use**

- What are the highest and best uses for new development and redevelopment along the corridor?

*Figure 1 Vacant parcels on the north side of Peters Rd situated between 441 & SW 45th Ave.*

- There are over 10 vacant commercial lots in the CRA, however the CRA seeks recommendations for new development on the vacant parcels depicted in Figure 1. The parcels abut single family zoning districts. The CRA would like recommendations for residential/retail uses that complement the surrounding residential districts and provide innovative uses that promote economic growth.
- The CRA seeks recommendations for programming and/or Planning and Zoning policies that promote future development of a type that is complementary to the corridor and its surrounding uses.

## **6. GATEWAY POLICING PLAN & LPR UPDATE**

Office Ventura give a brief overview of the Plantation Gateway District LPR project. There are new technologies and programs that they are looking into. See presentation below:

Mr. Hooley, Jr: The companies that put their bids in, are they the companies you are doing business with already?

Office Ventura: Yes, one out of the four companies we are doing business with.

Mr. Hooley, Jr: Are you holding bids for the Gateway or is this for the whole city?

Office Ventura: In this case, my focus is on the Gateway because we have been looking at this for so long. Ultimately, the standardization process will go over to the rest of the city, but my focus right now is primarily the Gateway.

Mr. Hooley, Jr: So, your thought process is the guy you have pick here, will be the guy you are going to move forward with for the whole process?

Office Ventura: Correct, just to ensure we don't too many separate systems. (inaudible)

Mr. Hooley, Jr: The other criteria is to check with other cities that is using their technology.

Office Ventura: I have been in touch with numerous cities regarding multiple different vendors, this type of reviews is very extensive to covers all the references.

Mr. Hooley, Jr: Any other questions or comments? This is to be paid for out of what bracket?

Dan Holmes: Inaudible

Lt Brown: I want to formally introduce one of my gateway officers, Officer Ventura. If you have any questions, please feel free to ask him. I am going to address two topics today, the Gateway proposal to add additional officers to the Gateway district and the crimes from the previous month. See presentation below:

Mayor Stoner: Tell us the statistics first.

Lt. Brown: Which statistics are you looking for?

Mayor Stoner: Crime

Lt. Brown: We had 133 citations, 36 arrests, 91 traffic crashes, 15 field interviews - field contact where we would go out and talk to people who we might think is up to something. We also had 57 Part-1 crimes. When we talk about Part 1 crimes that is what Mr. Hall talked about on the online portal for all to see. See attachment below:

Mr. Hooley, Jr: Explain the schedule to me, we only have two guys working the Gateway corridor with a high level of criminal activity?

Lt. Brown: There are two officers that work 11 ½ hours staggered shifts and don't see each other on different days. Example: one officer works 7am to 6:30pm the first half of the week and the

other shift is 8am to 7:30pm on the other half of the week during the day time. There is an hour stagger and they don't we each other.

Mr. Hooley, Jr: Both daytime?

Lt. Brown: Exactly!

Mr. Hooley, Jr: So, there is no one on a night shift?

Lt. Brown: That's what I wanted to bring up as well. On a 11 ½ hour-based shift the hours that we are out there are flexible. If there is a hotspot or we see there is more activity, we can designate the overtime shifts at that time.

Mr. Hooley, Jr: (inaudible)

Mayor Stoner: What would your night shift hours be?

Lt. Brown: Night shift hours are staggered and the two shifts will start at 530pm and 630pm and both shifts are 11 ½ hours long.

Mr. Brady: Is the gateway officers are covered by the Plantation police?

Lt. Brown: Yes, we still have Plantation police officers but they don't focus on that corridor however they are patrolling around.

Mr. Nunemaker: Inaudible

Mr. Hooley, Jr: If you guys can come up with a proposal and get back to us. Lt. Brown you do the policing so I would like to know how can we get some overtime officers in the evenings? And they will tell us how that can be paid for? I want these two elements.

Mayor Stoner: We can get the data on that? I would like to see one of the officers do a week in the evenings, and let's see what we can come up with.

Lt. Brown: Absolutely!

Mayor Stoner: I would have thought, we would have some type of coverage out there, specifically because of the area. I am a little more than surprised that we have nothing. I know there is a staffing shortage but we are looking. We have one of our officers that teaches at

Broward College. He tries to talk with them and bring them onboard, but we are not the only ones that are short staffed.

Mr. Nunemaker: Due to covid the class sizes are shorten. (Inaudible)

Mr. Hooley, Jr: Okay, maybe when you do your analysis, will it be possible to switch one of the Gateways' officers to night shift? So that we will have 23-hours or 24-hour coverage?

Mr. Bromante: Outside of gateway, we have the 2<sup>nd</sup> zone officers (inaudible) How many officers do you have in the 2<sup>nd</sup> zone?

Lt. Brown: We have alfa, bravo and there is not Charlie shift. Charlie is a night shift and in a perfect world, we will have three officers assigned to the 2<sup>nd</sup> zone during the daytime and this is not including the assigned Gateway officers.

Mr. Bromante: Either way, there are three officers that covers the 2<sup>nd</sup> zone. (Inaudible everyone is speaking at once)

Mr. Bingham: I open up my shop at 6:45am every morning and there have been days, where an officer backed in my parking lot.

Lt. Brown: Is there a possibility that is a 2<sup>nd</sup> zone officer not a Gateway officer? Because the jurisdiction for the 2<sup>nd</sup> zone the same.

Mayor Stoner: Let's just agree that we need an officers out there sooner than later.

Mr. Hooley, Jr: I agree. First, very nice presentation and thank you for coming here today. Plantation Ford uses a company called Night Hawk Security, they set up a grid and if someone comes into that grid it pops up to a mentoring company that watches the activity within that grid. And you only pay a \$1 an hour for these people overnight. I have upgraded the camera at Plantation Ford, you have to have better cameras for this technology to work. It is so unbelievable that this technology is out there and we are still having so many problems. I am going to do the exact same thing for my Toyota dealership.

Officer Ventura: **(inaudible)** The company can turn your upgraded camera system and add the LPR system to it then feed that into our system. Now if your camera goes off, the police will get that alert at the same time. We cannot get into the exact specifics of this but you are looking to incorporate that system.

Mr. Hooley, Jr: That was great! Thank you so much for coming and giving that presentation. Is there any thing else? Thank you all for your efforts.

Nick Sortal: Do you know about Broadview Park and what's going on? How is the crime safer at Plantation Inn? I think he has a point is everybody happy and feeling appointed? We can talk about it off line, but that what's on my mind.

Mr. Hooley, Jr: Awesome and thank you very much, we will put some of those things down for next meeting. Thank you and have a great holiday.

# PLANTATION GATEWAY DEVELOPMENT DISTRICT

Automated License Plate Reader Update

# PLANTATION GATEWAY DEVELOPMENT DISTRICT

## Automated License Plate Reader Update

Police Department's current ALPR program:

- Combination of fixed and mobile ALPRs
- Vendor is Vetted Security Solutions utilizing the Vigilant Solutions platform (Owned by Motorola)

# PLANTATION GATEWAY DEVELOPMENT DISTRICT

## Automated License Plate Reader Update

- Upon proposing an ALPR project for the Gateway District, PPD was prepared to proceed with our current vendor to provide this service to the District
- During the planning process for this project, we learned of other vendors and new technology developments that warranted further investigation
- In consultation with City Administration and the Procurement Department, it was decided that it would be best to seek qualifications from various firms for a more detailed evaluation
- This process will ensure that the Gateway District gets the most advantageous firm for the unique needs of the district

# PLANTATION GATEWAY DEVELOPMENT DISTRICT

## Automated License Plate Reader Update

- RFQ number 100-21, Automated License Plate Recognition System, opened December 7<sup>th</sup>, 2021
- A total of 4 responsive bidders submitted proposals for this project:
  - ❖ Vetted Security Solutions
  - ❖ Rekor Recognition Systems
  - ❖ Flock Safety
  - ❖ Act Now Technologies
- An evaluation committee has been formed to evaluate the proposals

# PLANTATION GATEWAY DEVELOPMENT DISTRICT

## Automated License Plate Reader Update

- Selection Committee meets on December 16<sup>th</sup> at 9:00 am
- Once proposals have been ranked, they will be presented to the City Council for approval.
- Once approved, negotiations with highest ranked firm will begin

# Gateway Proposal

- This Gateway proposal includes the cost of adding additional personnel to the Gateway District
- Fulltime Sworn Officer is not currently a possibility due to staffing shortages
- An Overtime based shift is possible until staffing shortages are relieved
- Coverage hours were based off of an 11.5 hour day, 7 days a week however this can be amended to appropriately address the needs of the Gateway District

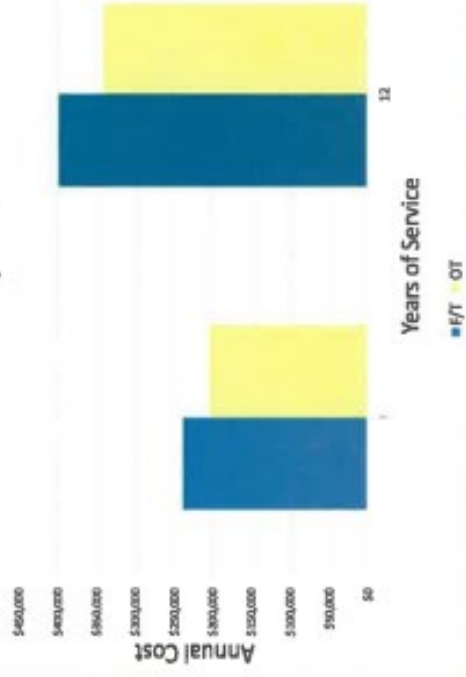

# Gateway Proposal

Glendon Hall gave a brief explanation of what the expectation of the Gateway Commercial Grant – (Inaudible) Please see below:

## **COMMERCIAL FACADE IMPROVEMENT PROGRAM (CFIP)**

Objective: To eliminate slum and blight, remove deterioration; update exteriors of existing buildings in a manner that improves the economic viability of commercial areas.

### **Eligible Projects:**

Improvements to an existing building within the Gateway CRA designed and used for:

- Non-residential use, or
- Mixture of uses containing a combination of residential dwelling units with commercial retail sales, service, office uses or any combination thereof as permitted by the Unified Land Development Regulations, City of Plantation.

The proposed project must comply with the CRA Redevelopment Plan, urban design guidelines, applicable land use regulations, and current code requirements.

### **Eligible Project Costs:**

- All costs associated with exterior improvements which include but are not limited to: entry doors, windows, lighting, security/surveillance cameras, shade canopy/awnings, sidewalks, and parking facilities further the objectives of this incentive.
- Cost of restoration, rehabilitation or both of exterior building are eligible for consideration.
- Costs associated with design and permitting of exterior improvements, restoration, or rehabilitation such as architectural, engineering, permit and application fees.

### **Award Guidelines:**

- 75% of the eligible costs not to exceed \$75,000.

### **Funding Conditions:**

- Applicants shall propose a performance measure that demonstrates how the project contributes to the elimination or prevention of slum and blight. Job creation or job retention is an example of a performance indicator that may be required to fulfill this requirement.
- The program award will have ongoing obligations or covenants, which includes but is not limited to a lien on the applicant's property of up to 5 years (If property is sold within 5 years, the property owner must reimburse the full grant amount).
- In the case of multiple structures on a single property, the CRA Board (and/or designee), at its sole discretion, may consider a forgivable loan application for each structure subject to the terms, conditions, and limits applicable to the location of the subject property.
- There must be a documented selection process for the General Contractors selected for this project. The CRA recommends the use of General Contractors from its approved contractor list.

## **8. AJOURNMENT**

Meeting adjourned at 12:21 p.m.
