4. GATEWAY FINANCIAL REPORT

Gateway CRA Financial Report- January, 2022

Mr. Holmes presented the Financial Report as of January 2022, current year additions/deletions, revenues and expenditures. He reported the expenditures are normal and right where we are typically are as of January 31st.
January 2022 Financial Statements.pdf

5. DEVELOPMENT UPDATE

Development Update

Mr. Holmes presented the proposed development update. The only update that is not on the handout is Planation Circle K is now in the PNZ Board status. The report is incorporated into these minutes.

Discussion ensued regarding the development update.

Mr. Hall presented a Google maps link to the board and explained the various features and information.

Mr. Bromante: On Broward Blvd there is a Citgo Gas Station, is that considered Gateway? What are they doing there? I see that they leveled the place.

Mr. Holmes: It is within the CRA, they have an online auto sales business.

Mr. Hall explained the project pipeline & properties for sale. Alexan was purchased by Windsor Apt for 73 million dollars and they will be coming to speak to the Mayor in March about other investments. He also discussed the Urban Land Institute- what it is and the invest project for City of Plantation that was suggested by the Mayor.

GID BUYS APARTMENTS.pdf

6. OTHER BUSINESS/DISCUSSIONS

a. Gateway Policing Plan- New OT Officers and LPR Updates

Lt. Brown gave an update on the Gateway policing plan, community engagement unit that Officer Ventura transferred to, and introduced the new Gateway officer. The new shift starts on Feb 20th from 6pm to 4am for seven days a week. The overtime shift is open to all sworn officers and have daily requirements.

- Patrolling at least twice during their shift for all the businesses within the district.
- Daily activity log will need to be filled out.

Weekly briefs are conducted on crime trends in the corridor which are provided to the Gateway officers. Foot patrol has been increased for the businesses in the Gateway corridor and a log maintained of the patrons that are found in front of the businesses. The community engagement unit is hosting an event March 18.

FLYERS.pdf

b. Follow-up to December Meeting Inquiries

Capt. Fowler gave an update on the LPR and the December meeting inquiries. There were a few meetings regarding the LPR and with the vendor that score highest on the bid. During the meetings with the vendor, they have learned of some pricing options and other capabilities that are out there. Additional information is needed from other vendors before a final vendor selection is made. This process will take several more months to ensure that it best serve the needs of the Gateway.

Mr. Hall: Is there a standard system I need in order to connect to the LPR system?

Capt. Fowler: There will be some specs that businesses will need to have but the vendor that we select will provide that specific information and will be give it to the businesses in the Gateway.

Mr. Hooley: Can you tell us what are you focused on right now and what we need to do to help you?

Ms. Robinson explained the code enforcement procedures and the type of code violations. The code enforcement officers are addressing all code violations during their inspections for the entire city.

Mr. Hooley: Can we have someone to dedicate their time just to the Gateway corridor for beautification purposes for one week?

Ms. Robinson: There are a lot of code violations already that are on 441 and we want to allow the code officer time to work through the pending violations first, before dedicating time to a corridor.

Mr. Hall: Please remember all code violations are updated on the Google mapping website.

Ms. Shalon gave an update on the city lightning and landscaping projects on the corridor. The east side of the project, FPL has removed the overhead and underground lights. The west side of this project there are double poles that are being removed by FPL and only decorative lightning will be throughout the corridor. State Road 7 is FDOT right-of-way and they have multiple projects in the near future

for that area. I will update Glen Hall on the upcoming projects. There is a contractor that will start next week, working on the east side landscape project. The estimated completion of this project will be the first week of April.

Mr. Schneider: Can we send out mailing to the business along the corridor?
This meeting is important and most business owners does not know this board exist.

Mr. Hall: There are newsletters that will be going out and will be sent out digitally first.

GID buys newly built Plantation apartments for \$73M

Deal for 248-unit complex breaks down to \$293K per apartment

Miami /
January 06, 2022 03:30 PM
By Lidia Dinkova

GID's president and CEO Gregory Bates and Windsor 335 (Kim Seng, GID)

Real estate firm GID scooped up the newly built Windsor 335 apartment complex in Plantation for \$72.7 million, as the robust multifamily market continues to attract investors.

New York-based CP Capital and Dallas-based Trammell Crow Residential, through an affiliate, sold the 248-unit community at 335 North State Road 7, records show.

ADVERTISING

The deal breaks down to \$293,240 per apartment.

The complex was completed in April, according to a news release from the sellers. Amenities include a gym, game room, business center and pool.

Windsor 335 offers one- to three-bedroom apartments, with rent ranging from \$2,465 to \$3,020 a month, according to Apartments.com.

The development encompasses eight buildings on 9.4 acres, property records show. CP Capital and Trammel Crow's affiliate bought the site in 2019 for \$11 million.

CP Capital, previously called HQ Capital Real Estate, is a multifamily focused investment manager, according to its website. Founded in 1989, It has invested in about \$15 billion in real estate through its funds and separate accounts on behalf of institutions and family offices.

ADVERTISEMENT

Trammell Crow Residential, the multifamily development arm of Crow Holdings, has built more than 260,000 residences over 40 years. Trammell Crow is led by Ken Valach.

Trammell and CP Capital have partnered on more than 30 projects, according to the release.

Trammell's sale of the Plantation complex, which originally was developed under Trammell's Alexan brand, comes as the company is embarking on new South Florida multifamily projects. It paid \$9.8 million in November for a Miramar development site where it plans to build a 250-unit apartment complex.

GID, founded in 1960, has built, managed or bought more than 86,000 apartments and over 32.5 million square feet of commercial space, according to its website. Its president and CEO is Gregory Bates. GID has offices in Atlanta, Boston, Dallas, New York and San Francisco.

ADVERTISEMENT

In December, GID bought an apartment complex in the city of La Habra in Orange County, California, for \$182.5 million.

Its other South Florida multifamily investments include the ground-up development of the 249-unit Windsor at Doral complex near the Trump National Doral Miami.

- The regional apartment market has been over-performing over the past year because of high demand, which has pushed up rents. This has caught the eye of developers who are embarking on new projects and attracted investors who are scooping up existing complexes.

The biggest multifamily deal of 2021 was Grant Cardone's purchase of four apartment communities in Broward County for \$744 million.

February 7, 2022
Jessica S. Valenzuela
Educational Advisory Board Member 2021/22
10502 NW 10th Street
Plantation, FL 33317

Attention City Administration,

At the January 2nd Educational Advisory Board meeting the Board discussed the matter of safety for the Deaf and Hard of Hearing in our Plantations Schools. It was brought to the attention of the Board that Deaf students at Peters Elementary, Seminole Middle, South Plantation High, and Tropical Elementary do not have a visual or vibration safety system in place that alerts them if there is an emergency on campus. These schools are the only homes to Special Programs for the Deaf and Hard of Hearing in the District. The lack of accessibility cannot be tolerated for another day. Deaf educators are left to be notified via text message that there is a safety concern, and there is no accessibility for these students or educators who may be in common areas on campus outside of classrooms.

Advocacy has begun by stakeholders and by Mrs. Denise Horland, a Plantation City Councilmember. The safety of Deaf students in our Plantation schools is no less vital than that of any hearing student or staff member. The District that hosted the MSD tragedy should be placing the absolute highest priority on the safety and wellbeing of students learning within their walls. Deaf Students are terrified along side their Deaf teachers, and these conditions are not conducive to a student's pursuit of learning, or the goal of any Deaf teacher to educate.

The EAB recommends to City of Plantation Administration that they pursue a dialogue with the School Board and Superintendent exploring how accessibility and safety concerns at Plantation public schools can be addressed in an accelerated manner.

Thank you for your attention to this matter.

Sincerely yours,

Jessica Stodel Valenzuela
EAB Member 2021/2022

Project:	Plantation General Hospital Campus Redevelopment
Client:	City Of Plantation
Brief Description:	The primary tangible land use and real estate challenge facing the Plantation Gateway CRA District is the significant economic impact of the relocation of Plantation General's acute care hospital to the campus of Nova Southeastern University in Davie, and the potential loss of the surrounding medical office uses. Negative impacts of this departure include: the reduction of adequate health care service to the community (especially to low-income, uninsured, immigrant, or otherwise vulnerable individuals in need of general medical care), tax consequences, and the loss of a major economic anchor of the City's north Gateway business district, where synergy from PGH has created a medical complex and over 94 medically related businesses has chosen to locate and invest in the area.
General Questions:	• The CRA seeks recommendations on Zoning and Land use regulations to encourage the location of desirable alternate uses/users to the facility and/or prospective developers for redevelopment of the PGH property/medical complex. • The CRA seeks recommendations on financial incentives, to attract and retain existing medical businesses within the PGH area to maintain the medical campus i.e. house pharmaceutical industries, R&D facilities/ laboratories, Biomedical Sciences etc. • The CRA seeks elements and strategies vital to help them create a marketing deck to market the PGH property/medical complex by creating an advertising campaign for redevelopment of the building/campus.
Purpose of LP:	The Leadership Project ("LP") is designed to harness the strength, experience, and leadership of the ULI Leadership Institute participants ("LP Team") to partner with local non-profit entity ("Client") and address a tangible land use or real estate challenge. The LP Team shall collaborate with the Client to develop a scope of work and objectives of the LP.
Task:	The LP Team shall: • Conduct research • Due diligence • Data analysis • Interview stakeholders/industry experts • Synthesize findings/conclusions • Develop final recommendations • Create final presentation to Client and to ULI
Deliverables:	1. PowerPoint presentation to Client and to ULI

	a. Should document the team's approach, research, and recommendations, and should be tailored to meet your Client's needs. b. Should be delivered by all member of the LP Team 2. Electronic and printable hard copy report a. One page Executive Summary Memo describing project and recommendations b. Written report that incorporates the information in the presentation, but should be expanded include the research and detailed findings. The written report should be in electronic format and easily printable.
