Plantation Midtown Development District Advisory Board Meeting
November 14, 2019 ♦ 12:00 – 1:30 PM
City of Plantation Development Building
401 NW 70 Terrace, 1st Floor Conference Room

AGENDA

- I. Welcome and Introductions
- II. Approval of Minutes
 - September 12, 2019 Minutes*
- III. Development Activity
 - Development Activity Report*
- IV. Mayor Lynn Stoner
 - Midtown Spine Road & Bridge Update
- V. Meeting schedule – 2020*
- VI. Adjourn

Next scheduled Meeting, Thursday, January 9, 2020.

*Backup attached

The City of Plantation will provide reasonable accommodations for disabled individuals requesting special assistance in order to attend or participate in this meeting; provided however, that a request for such assistance must be made to the Office of the City Clerk (954) 797-2237 at least five (5) calendar days prior to the meeting unless the meeting is held by the City Council, in which case the request for special assistance must be made within three (3) calendar days of the scheduled meeting.

Notice is hereby given to all interested parties that if any person should decide to appeal any decision made at the forthcoming meeting for which this agenda constitutes notice, such person will need a record of proceedings conducted at such meeting, and for such purpose, they may need to ensure that a verbatim record of the proceedings is made, which record includes testimony and evidence upon which the appeal is to be based.

Minutes of the Regular Meeting of the
Plantation Midtown Development District Advisory Board
City of Plantation, Florida
Held November 14, 2019

Members Present:

Angel Cabrera
Owen Duke
Jim Inklebarger
Barbara Simmons
Barry Lethbridge, Chair

Members Absent:

John Auerbach
Anthony Seijas

Also Present:

Susan DiLaura, Economic Development Administrator
Danny A. Holmes, AICP, Director
Mayor Lynn Stoner
Jason Nunemaker, Chief Administrative Officer
Dawn Mehler, Assistant City Administrator
Denise Horland, Councilmember
Nick Sortal, Councilmember

WELCOME AND INTRODUCTIONS

Self-Introductions were done.

* * * * *

APPROVAL OF MINUTES – September 12, 2019 minutes

ACTION: Minutes were approved.

* * * * *

Ms. DiLaura reported there is no Financial Report this meeting. Finance is finalizing numbers for last year and books are closing on September of the Fiscal Year, but a full report will be provided at the January meeting.

DEVELOPMENT ACTIVITY

a. Development Activity Report

Ms. DiLaura provided the following updates:

- Aldi, Camden at Fountains, Kaluz, and Plantation Midtown Square are all in permit review.
- Temple Kol Ami Residential has been approved and we are waiting for them to begin the permitting process.

- Plantation Midtown Square at Pine Island, Starbuck, Amli (Crossroads), Baptist Health, Baptist Health South, Millcreek/Cornerstone, Lakeside Plantation, Plantation Walk, and Seritage are all under construction.
- Plantation Walk Phase 2 is in site plan review.

Councilmember Sortal commented that Amli sends a weekly progress report and questioned if the Board could get a copy.

Mr. Inklebarger commented on Seritage and noted that YOLO is underway. An Outback spinoff is taking 1,900 feet that will be going next to YOLO.

Mr. Holmes indicated that the second phase for Plantation Walk will be on the agenda for the next City Council meeting.

In response to Chair Lethbridge, Mr. Holmes stated there is a hotel, a 55+ residential development proposed, a garage, and a medical and office building.

Mayor Stoner mentioned that the 55+ residential development would have a theater and restaurant; it is totally inclusive and the cost is about \$5,000 to \$6,000 per month.

* * * * *

Mayor Lynn Stoner

- Midtown Spine Road & Bridge Update

Mayor Stoner reported that at the last meeting, the Board voted on allowing Administration to spend up to \$700,000 on the bridge and some internal improvements within Midtown. They were trying to piggyback on the existing PD&E reports for other nearby FDOT projects, but because of the age of those reports, they cannot. The \$700,000 will still cover the design build, but the PD&E needs to be paid first.

Glenn Flutie, who does all the bus benches in Plantation, said he would provide benches and trashcans at no cost to Midtown. The benches would get advertised and funds would be distributed to other non-profits instead of to the Women's Club.

Shuttle routes have been revised continuously and have been submitted for the third time.

Plans and maps were shown and there was discussion regarding the spine road, Crossroads, Amli, and the light. As they get into the bridge, Mayor Stoner wants a few left turns because there is right-of-way if needed. All shuttle stops must be ADA compliant and some of the Broward County stops are already ADA compliant; therefore, other bus stops would have to be constructed, which Public Works could do. Westfield Broward and Pine Island Park were mentioned as well as a parking lot in the corner that is sufficient for a covered bus bench to accommodate quite a few people. Shuttle routes and stops were discussed and it was noted there would be a slight overlap because service must be provided to connect to Davie and then there would be a connection with either Sunrise or Lauderhill on State Road 7.

An FTA group offered \$2 million and because the City of Sunrise was not ready, we said we would take it all. This has been broken up to put lighting on the spine road, but now the entire thing can be done since we do not have to pay for benches and garbage cans. The concept of the banners is being redone, so an identity is being developed for the corridor. Everyone is being asked to have bike racks. New bike vendors are a concession; they pay the City for the concession and they are equipped with GPS; they have to pick up bikes every night, put them back, and maintain them. It was noted that there would not be scooters; there is too much liability and risk.

In response to Mr. Duke, Mayor Stoner wants shuttles to run all day, but at a certain point in the evenings, she wants to only service local restaurants. Planning and Zoning is in the process of putting together an entertainment overlay for this District, so we want to be able to accommodate that. They are still working on the hours.

It was noted that hedges on the corner at SW 5th Street, Canterbury, were replaced with a Clusia hedge, and six Black Olive trees were removed to create a nice visual presentation.

With regard to adaptive lighting, when Mayor Stoner met with the MPO it was learned that fiber optics have to be in first. There are fiber optics from Broward Boulevard to I-595, but Mayor Stoner said, "That was not enough, she wants them from Sterling Road to Sunrise Boulevard" and they gave her from Griffin Road to Sunrise Boulevard, which starts in 2020. There are no fiber optics on Pine Island Road to Broward Boulevard, but there are fiber optics from Broward Boulevard to Sunrise Boulevard, so they agreed to add the fiber optics. Lights will be on hold for a year until we see how University Drive does and what needs to be tweaked.

In response to Chair Lethbridge, Mayor Stoner indicated that adaptive lighting manages traffic and detects on its own; it is software with an attachment that goes on the light mast. The City of Plantation will be the first in the County to have this.

Councilmember Horland mentioned the shuttle and discussion ensued about putting the map up and other information that highlights some of the businesses.

Mayor Stoner indicated that Mr. Flutie said a lot of businesses were upset there was no longer any business advertisement, so the bikes and benches would solve that issue and there would be more integration as to what is going on. She is trying to see if lights can be installed and if she can get five white Crepe Myrtles for one area, and another flowering tree for another place. There will not be an easement for the bus bench slabs, instead a license agreement is being done, which is much easier to get.

In response to Chair Lethbridge, Mayor Stoner advised that some of the bus benches would be covered including the large one by Pine Island. She wanted to do a parking garage in the parking lot because it truly gives everyone a place to park and Parks and Recreation seem to think this is needed. She is trying to convince them into developing more mom and pop shops along with entertainment. Drainage would have to be redone, but she thought a parking garage would be amazing and it would be there for the shuttle.

Mr. Duke mentioned a deed restriction from the Westfield Broward when the parking lot was purchased that limited development.

Mayor Stoner indicated that she has not read the deed recently, but one of the main components was to allow an amphitheater in that location. As this started to develop, developers came to Parks and Recreation and said they needed parking, so a separate agreement was done and those funds were used to buy the showcase trailer, which could be set up anywhere, it is portable and like a mini amphitheater.

Chair Lethbridge stated that Plantation Walk is parking at the hospital.

Mayor Stoner commented that the garage is not going to be large enough, it is going to have to be expanded. The office building being built together with the parking garage at Plantation Point at University Drive and Sunrise Boulevard wanted a helipad on top of the garage, so we said they have to sign an agreement that allows the City to have use. Westside has a helipad and the new building at Strata also wants a helipad, but they have to allow City access. One thing required on parking garages is that there is a way to design them should it not be a parking garage at some time. The way the ramps are built, they could be accommodated for an office building after the fact.

Mayor Stoner indicated that Sun Trust is being demolished. She questioned how the Board felt about making Broward Boulevard adaptive. When getting to Sunrise Boulevard and State Road 7, from east to west there is a slight incline, a bridge, and regular traffic goes underneath and it is believed that should be done at Broward Boulevard and University Drive, but she was not sure we were ready for that. It was noted the height is such that businesses could still be seen, so no signs were blocked, which is an important component.

Mr. Duke mentioned the parking garage and use during events.

Mayor Stoner stated the garage could be reserved. Since the show mobile is public, any kind of Christmas events can be done, as they are not bound by anyone coming in for religious components. The Fountains is doing an event this year and the City is going to try to incorporate weekly events with the new show mobile. As Plantation Walk comes on, they will meet with Westfield Broward, as the show mobile is going to move every year, so each place can take advantage of attracting patrons.

With regard to the tax base, Mayor Stoner said she went through all the CO's and determined how much the City would get in taxes in addition to what was previously received. They were right on for new things; there was \$2.5 million extra and she did not believe the millage would need to be raised. There are currently about \$100 million in investments with Plantation Walk, Baptist Health, and Millcreek.

Mayor Stoner mentioned golf and wants to find a way to put a second floor on the Plantation Preserve, which would increase the capacity for events. Nowhere in the City can anyone accommodate over 175 people, we need to have our own functions. A second story could be cantilevered without losing a view. She would like to explore this and see what happens.

The City has some surplus property no one has ever asked about. In the last couple of weeks, three phone calls were received inquiring about property in the Acres and along Peters Road, which is the CRA. The City wants to do a whole new identity for Peters Road and in asking the County about buying the triangle between Peters Road and Davie Boulevard, she was told they would not allow it unless we take Broadview Park, but it was decided there are too many code issues. The City could assume responsibility for Code Enforcement along the south side of Peters Road, so both sides of the road would look nice since we are going to clean up the corridor. A separate agreement to assume code responsibility for that side of the road is being explored.

Mayor Stoner stated there are surrounding buildings around Plantation General and noted some are condo and some are office. She wants to make sure those are captured and moved to Westside and suggesting putting a package together, so if someone wanted to assemble some of the properties, information showing whatever is available to see what could be done. Work has already started on the new rental north of Broward Boulevard and State Road 7 on the west side.

Ms. Simmons indicated Plantation General is planning to keep the emergency room open and is looking to renovate the bottom floor for patient care.

Mr. Duke commented that Plantation is blooming. The first place people want to visit is Las Olas, but if they do not go there, their first choice is Plantation.

Mayor Stoner stated that Plantation Point does not seem to have any trouble filling their spots immediately; however, Plantation Walk has indicated they are having a little trouble because it is too expensive, but that is not true.

Mr. Duke mentioned there is a rumor that the whole building is going to be put on the market. He commented there is no office space available.

Chair Lethbridge indicated that he received a call from construction people at Plantation Walk looking for office space because they were told they could not go into the Aetna building.

Mayor Stoner clarified there is no Class A office space, even on rentals. No one wants the old stuff, there is still affordable housing in the City, but it was built 40-50 years ago and everyone wants nice finishes.

Mr. Duke mentioned the over 55 building and thought the garage should be raised two more floors, so Westside could buy two floors of parking to expand and build out.

Mayor Stoner said two floors could be added, but she has been very frank about art in public places; we have nothing. Along the back wall of the existing parking garage, she has asked to have some kind of horizontal vertical mural because the way it is set up it cannot be done; however, the developer agreed to do a mural on the back side of the new building at Market Place.

Mr. Duke suggested dedicating a small area to an art gallery.

Mayor Stoner commented that she has seen that in other places and would keep it in mind as we move forward and see what the City has available. As a City, we have committed to hang art from the Plantation Art Guild in public places.

Mr. Cabrera stated that he met with the President of the Art Guild and Westfield Broward is open to having an art gallery within the Center. He noted they previously did Wynwood and Westwood Walls and this year they had Art Labs. An interactive Art Lab was created in a vacant space for families to participate. Part of their business plan is to expand and focus more in the Arts and bring some of the music into it as well.

Mayor Stoner advised that the City is having the First Philharmonic Orchestra together with Broward County at Heritage Park on February 20, 2020; Nestor Torres will be there. They have their own choir and instruments kids can touch.

Mr. Duke mentioned Broward County does not have an area that concentrates on Arts.

Mr. Cabrera noted that the more he talks to people about Midtown the more people want it. They want live music like at Fishtails off A1A and Oakland Park, where you can walk to two or three music places. It can be done from 5:00 p.m. to 8:00 p.m. and then from 9:00 p.m. to 12:00 a.m.

Mayor Stoner indicated that people would take advantage of additional food and entertainment and she thought the entertainment overlay would be hugely invaluable.

Mr. Cabrera commented that the Hard Rock was looking to partner with a golf course in Plantation; Lago Mar, because they created a resort and can offer that.

Mayor Stoner stated the other thing that could be offered with the Plantation Preserve is the cruise ships; "Come on over here for the day". The possibilities are endless; we have to work it and make sure things offered are what people want that they would not pass on.

Mr. Cabrera built the Dolphin Mall from ground up and used a similar analogy as far as location, because they were six miles from the Port of Miami. One of the first things they did was purchase three 30-passenger shuttles and to this day they are still in place. Buses are scheduled to stop at distinct hotels throughout the route, they go to the Miami Airport where they pick up, then go to the Port of Miami and bring passengers back. A customer loyalty program was developed.

Mayor Stoner advised that a Midtown visit could be incorporated; there are plenty places to eat and shop while husbands are golfing. One of the components is always the food; there is a huge opportunity to up the food choices to attract more restaurants and people eating out.

Mr. Cabrera indicated that the game plan, as far as the east entrance off University Drive, is to have a grand entrance similar to what Seritage is doing off Broward Boulevard with a beautiful tree line and up-lighting along the Oak trees. There would be something leading to the fountain and then two signature restaurants with valet drop-off and parking. The goal is to bring in high caliber restaurants.

Mayor Stoner suggested keeping landscaping similar to Seritage and stated lighting was welcome in those trees anytime.

Mr. Duke advised that if someone wants Class A office space they currently go to Las Olas, and if they do not go there, the City of Plantation is their first choice.

Mayor Stoner commented that no one wants to go downtown. There are great spaces, some of the older buildings are coming down, people are looking to redo their areas and reinvest.

Mr. Duke mentioned State Road 7 and how it has grown; it looks great. This past week someone asked if apartments would be allowed on top of the shopping center on the northwest corner of State Road 7.

Mayor Stoner indicated that the State Road 7 corridor is not as bad as it once was, but there is still room for improvement. She is waiting for Mr. Batmasian's contract to come back because they obligated themselves to have a Farmer's Market in that shopping center, which is perfect for the new apartments coming in.

Councilmember Horland stated that a group came before City Council called "Choose 954", and they put art galleries in vacant properties.

Mr. Duke commented that the secret to making that work is getting good art. If something were developed, 1,000 feet could be dedicated.

Mayor Stoner mentioned there are several self-contained areas at the airport in the baggage claim area and wondered how that could be incorporated outside along the Midtown spine road near a couple of the transit areas. The airport will contribute their space to non-profits and there is no charge.

With regard to restaurants, Mayor Stoner indicated that while driving along University Drive north, there is nowhere to eat; she thinks there is an open market that needs to be satisfied.

Ms. Simmons commented that someone needs to be open for lunch.

Mayor Stoner advised that the shuttle would go to Sunrise Boulevard to Plantation Point, so anyone within the City could go to other places.

In response to Councilmember Horland, Mayor Stoner stated they were told about the pads having to be ADA compliant eight months after starting. The initial goal was to get the slabs in, so the shuttle could start. Some of the covered bus benches are not ADA compliant as far as being able to pull a wheelchair or a stroller into the shade, so the secondary goal was to have more covered than not, and incorporating a solar light above, so they are always lit up.

Ms. Simmons questioned if it was possible to get a smaller version of the maps, so she could show them to her employees.

Mayor Stoner indicated she would prefer to give it to her next week after the meeting.

NEW BUSINESS

Chair Lethbridge questioned if there was any update regarding the rewrite of the ordinance.

Mr. Holmes advised they are meeting with the City Attorney to go over each chapter and after that the code should be ready to be presented to the City Council for final approval. The short-term vacation rental was signed yesterday and he will be calling Host Compliance to put a schedule in place for implementation, which takes about a month.

In response to Councilmember Horland, Mr. Holmes indicated that the code includes a provision for micro-breweries.

Ms. DiLaura provided a copy of the meetings for next year and asked if the Board would be willing to meet quarterly as opposed to every other month. She noted that the last couple meetings were moved to Thursdays because they conflicted with Chamber meetings and questioned if the Board wanted to move them back to Wednesdays. She stated she would email the Board members, so they could check what dates were convenient to meet.

Ms. Simmons stated she would have her secretary check to see which Chamber meetings are breakfast and which are lunch and she will forward that to Ms. DiLaura.

Mr. Inklebarger indicated that he was against quarterly meetings.

Mr. Cabrera made the following announcements:

- Paul Mitchell School Design opened and they are now registering students.
- Cajun Boil opened this weekend at the west entrance.
- Earthbound is scheduled to go in the old Gymboree location and they are working with Children's Place as well.
- Hopefully the Red Robin restaurant will be replaced soon.

Mr. Cabrera interviewed every customer who came out of Macy's since Macy's is the top performer in the State. Starbucks is doing incredibly well, the traffic in that entrance has increased by 19% in the past month. The customer intercept will give some good insight and focus on what is needed in the community. He heard some valuable comments today regarding Class A office space.

Mayor Stoner mentioned Light Up Plantation; the first one is at the Fountains on Friday, December 22, 2019 at 5:30 p.m., the City Parade is the next morning, and then, December 7, 2019 is Light Up City Hall.

Mr. Cabrera commented that the Kidney Run at Central Park was on the same day as the City Parade.

* * * * *

Meeting adjourned at 1:20 p.m.

* * * * *

RECORD ENTRY:

I HEREBY CERTIFY that the Original of the foregoing document was received by the Office of the City Clerk and entered into the Public Record this ____ day of _____, 2019.

Susan Slattery, City Clerk

RECENT AND PROPOSED DEVELOPMENT PROJECTS
