Minutes of the Regular Meeting of the
Plantation Midtown Development District Advisory Board
City of Plantation, Florida
Held March 13, 2019

Members Present:

John Auerbach
Owen Duke
Barry Lethbridge, Chair
Jane Schor
Barbara Simmons

Members Absent:

Anthony Sejas

Also Present:

Peter Dokuchitz, Principal Planner
Danny A. Holmes, AICP, Director
Carlos Gonzalez, Redevelopment Administrator
Susan DiLaura, Economic Development Administrator
Nick Sortal, Councilmember
Kerry Ezrol, City Attorney
Nancy Gold, resident

Motion by Mr. Owens, seconded by Ms. Simmons, to nominate Barry Lethbridge as Chair. Motion carried unanimously.

APPROVAL OF MINUTES – October 17, 2018 minutes*

ACTION: Minutes were approved.

* * * * *

FINANCIAL REPORT

a. Fund Ending January 2019*

Mr. Dokuchitz presented an overview of the financial report ending in January. The total fund equity for the District Fund was over \$4 million. Monthly statements include maintenance and costs. The Construction Fund was \$2.5 million.

In response to Mr. Auerbach, Mr. Holmes indicated that the projects were identified in the Midtown Plan and within the five-year Capital and Budget, which is done through Council.

Mr. Auerbach mentioned traffic concerns and stated that the funds are created through tax levies in the District and those dollars are not directed by Council or this Board.

In response to Chair Lethbridge, Mr. Holmes advised that a list of Capital projects would be added. With regard to traffic, the primary concern is with new projects and traffic located on University Drive and Pine

Island Road. The City of Plantation suffers from a typical suburban model of traffic where there is a limited traffic flow on collector roadways and local roadways. Arterial roadways are utilized as collectors and local roadways are to carry traffic and much of the traffic on University Drive and Pine Island Road is cut-thru traffic. The MPO has indicated that a lot of traffic is not coming from local businesses. Staff is working with the MPO for adaptive traffic lights to synchronize how traffic moves throughout the City as well as issues on Pine Island Road regarding infrastructure closer to I-595. University Drive has been approved for 2020. Synchronized lights are adaptive and will take into consideration the amount of traffic; it will read traffic flow and adapt or adjust lighting to move traffic.

Mr. Lethbridge referenced the crossover mentioned during a previous meeting.

Mr. Holmes advised that the MPO is looking at improvements at I-595 at Pine Island Road and University Drive to improve dedicated turn lanes onto State Road 84 and I-595. An approved concept is also for a bridge on 78th, which would dump traffic directly on State Road 84, reducing the amount of traffic flowing over University Drive and Pine Island Road. Mr. Holmes indicated that in two weeks he would be working on the Midtown Plan with Mayor Stoner regarding internal connectivity within the District to improve traffic flow.

In response to Ms. Gold, Mr. Holmes explained that when a new development comes in staff looks at the Institute of Traffic Engineers (ITE), who have done studies on every type of development out there and they have a general equation in terms of how much traffic is generated by that type of development. Generally, the overall size of the proposed development and estimate of the number of trips generated during peak hours in the mornings, afternoons, and throughout the entire day are looked at. If it is residential project, they have to model where residential traffic will go; either to a commercial use or office use, which will identify push pull factors for traffic. Based upon that, they would look at the amount of traffic going east or west and what roadways are used and the amount of traffic currently on the roadway, and then estimate the impact.

Mr. Auerbach thought that one of the misconceptions is that traffic has to do with what is happening inside Midtown; they are not necessarily connected to each other because so many people are coming from other areas trying to get to the I-595 corridor and they are all passing through and it has nothing to do with Midtown. The peak time of day is when all the office buildings are letting out and everyone is trying to get to I-595.

Mr. Duke mentioned an issue previously addressed regarding panhandlers at I-595 and Pine Island Road. It was noted that a law was passed that makes that against the law, but it is not enforced.

Ms. DiLaura advised that part of the problem is that the law is for the City limits of Plantation. The panhandlers stand on the other side of the street, which is Davie. Plantation is working with Davie. If people would call the non-emergency number when they see panhandlers in the street, eventually they will realize that it will not be tolerated.

Mr. Holmes mentioned the suburban pattern, which is synonymous with sprawl traffic. Staff is looking at taking the Midtown District and turning it into a Mixed-Use District, which would change the dynamics of traffic. When moving to a more traditional, urban style development pattern with mixed uses there will be some level of reduction because people could move around, work, play, and shop without having to utilize the primary arterials.

Ms. Gold understood the concept for the area, but there are people on the other side of University Drive and Pine Island Road in single-family homes that are affected as well; it is not just the people living in the mixed-use area.

Mr. Holmes indicated that some individuals will not opt to utilize University Drive and transit could be used to help carry more people.

Mr. Lethbridge stated that when the area was developed there was no residential was allowed. He noted that offices would produce more traffic than apartments.

Ms. Gold questioned what could be done to make traffic better between University Drive and Pine Island Road. She also mentioned adaptive lighting.

Mr. Holmes advised that the adaptive lighting is not yet in place, but it has been approved. He stated that he would be willing to sit with Ms. Gold to discuss this more in depth to help her understand the approach to what the City is doing. Broward County is going to continue growing in population, so we have to figure out how to grow; we have to grow in a smarter way and that is what the City is trying to achieve.

* * * * *

DEVELOPMENT ACTIVITY

a. Development Activity Report*

Mr. Dokuchitz stated that Baptist Health is completed and the grand opening is tomorrow.

Mr. Holmes provided the following updates:

- Temple Kol Ami has been approved since the last meeting.
- Plantation Walk is in permitting and starting on their first Phase, which is predominately residential with retail on the first floor. The office building remodel is close to completion. There will be some restaurants in the building and then there will be a commercial building across from it. They have been working on the tenant mix and names of the retails will be provided. As far as the CO for the garage, Mr. Holmes would have to talk to the Building Department.
- Kaluz is in the process and close to getting approval from the Council.
- With regard to the Sears project, each of the projects will be contacted to get an update on those that have signed leases.

* * * * *

OLD BUSINESS

a. Midtown Plan Status Report

Mr. Dokuchitz advised that surveys were sent out and a draft report was received from the MPO regarding the mobility hub. 153 surveys were completed and on-the-spot interviews were conducted with riders at the hub.

Several issues noted were connectivity to sidewalks, crosswalks, bike paths, improvements to multi mobile type of access to the area. People who responded online were more concerned about traffic congestion and the lack of traffic enforcement and people in cars had different issues than transit users. The goal is to mitigate some of those issues for pedestrians, transit users, and automobiles. Periodic updates will be provided as the study progresses.

Mr. Lethbridge commented that the study began prior to the sales tax passing.

Mr. Holmes stated that the City was fortunate to be one of the recipients of the mobility study grants. Based upon the study and analysis, there will be some funding for improvements.

* * * * *

NEW BUSINESS

a. Board Members Roster*

Mr. Dokuchitz advised that there is one vacancy on the Board.

b. 2019 Calendar of Meetings*

Mr. Holmes stated that there would probably be discussion regarding preparation for planning of routing traffic within Midtown during the May 8, 2019 meeting.

Mr. Lethbridge mentioned the zoning progress.

Mr. Holmes advised that Workshops were finalized with the City Council and minor changes were being made, which should be done in about two weeks. They will then go to the City Attorney to review the code overall. The project was a reorganization of the code and not much changed in regard to density issues; they did not want to create any nonconformities. Primary changes dealt with a reduction in parking requirements and parking, modifications to landscaping. Landscaping is being recommended because the code is not fully compliant with the Broward County Tree Preservation requirements and the landscape code has not been certified by Broward County. If the code is not certified, Broward County becomes the authority to do tree removal.

Councilmember Sortal commented that movie night at the Fountains did well. He felt that the Centers and businesses are hampered too much by not allowing more events.

Ms. Schor indicated that she briefly spoke to Mayor Stoner about the events, as they are only allowed a certain number of events and City events count as part of their events. She mentioned the Wine Walk last year and stated that it was very successful and was something they would like to do again. Mayor Stoner seemed amenable to further discussion.

Mr. Holmes advised that the next project is changing the special event code. Typically, with the special event ordinance they are looking at a mixed-use district where they are promoting a live, work, and play environment. He thought the code may be fine for shopping centers located outside of the District, but because there are

residents residing with the District, entertainment needs to improve. There probably needs to be some modification for the Midtown District.

In response to Mr. Auerbach, Mr. Holmes indicated that there have been a lot of individual businesses located in the shopping centers and some crazy special event proposals. Because there are so many tenants located within the Center, the code was designed to limit the number of requests of special events for the shopping center itself.

Councilmember Sortal commented that this is about sense of community and he would like people to have fun and that is the idea of doing these types of things.

Ms. Schor mentioned the Halloween event in conjunction with the City 25 years ago; the City advertised and used two spaces for a haunted house and a kids haunted house, and all the Center had to do was provide the venue and candy for the trick or treaters. The event was extremely well received and they would like to have it again or a Trunk or Treat event.

Mr. Holmes reiterated that staff is looking at a change.

Mr. Dokuchitz introduced Susan DiLaura, the new Economic Development Administrator and staff liaison for the Midtown Board from this point on.

Wednesday, January 9, 2019

Wednesday, March 13, 2019

Wednesday, May 8, 2019

Wednesday, July 10, 2019

Wednesday, September 11, 2019

Wednesday, November 13, 2019

The City of Plantation will provide reasonable accommodations for disabled individuals requesting special assistance in order to attend or participate in this meeting; provided however, that a request for such assistance must be made to the Office of the City Clerk (954) 797-2237 at least five (5) calendar days prior to the meeting unless the meeting is one held by the City Council, in which case the request for special assistance must be made within three (3) calendar days of the scheduled meeting.

Notice is hereby given to all interested parties that if any person should decide to appeal any decision made at the forthcoming meeting for which this agenda constitutes notice, such person will need a record of the proceedings conducted at such meeting, and for such purpose, they may need to ensure that a verbatim record of the proceedings is made, which record includes testimony and evidence upon which the appeal is to be based.
