Subject:

Automated License Plate Recognition (ALPR) System - Standardization

Summary:

Request authorization and approval of the following:

- Approval of the Selection Committee's scores, rankings and finding(s) relating to RFQ No.100-21.
- Approval of the Standardization of all City Automated License Plate Recognition System (ALPR) Solutions to Rekor Recognition Systems, Inc based on the procurement processes detailed in RFQ No. 100-21.
- Waive competitive bidding pursuant to Section 2-226(g)(14) of the City Code of Ordinances for the purchase of Automated License Plate Recognition (ALPR) System Solutions from Rekor Recognition Systems, Inc.
- Authorization and approval to waive competitive procurement processes identified in section(s) 2-226(b), and 2-226(c), and to request a pricing/quote(s) from Rekor Recognition Systems, Inc for Automated License Plate Recognition System (ALPR) Solutions on an as-needed basis. Adherence to City Code section 2-226(d) is still applicable, requiring City Council consideration for any purchase that exceeds \$35,000.00.

Background:

Strategic Priority - Quality Customer Care

The City issued a solicitation to qualified Firms to provide an Automatic License Plate Recognition (ALPR) System. The Automatic License Plate Recognition (ALPR) System is proposed to provide enhanced security for the residents by continuously monitoring the vehicles entering, leaving, and traversing the City. The distributed (ALPR) Systems shall be

linked to a central management server that will function as a primary interface point. The server will have the ability to “process information” which will allow the City to monitor activity and perform investigations; improving the overall safety of the City. The (ALPR) Systems will be fixed and able to read rear-view license plates. The City intends to monitor vehicular ingress and egress through (ALPR) Systems at designated locations.

Procurement Information

The City publicly solicited for qualified firms pursuant to City Code Sec. 2-220(c), in order to standardize the City's Automated License Plate System (ALPR) System with the most advantageous Firm as identified in Request for Qualifications (RFQ) No. 100-21.

On October 15, 2021, a total of four (4) Firms submitted qualifications. The RFQ was advertised/posted on the Demand Star website for fifty-two (52) calendar days. The Procurement Department performed a review of each Firm's qualifications to confirm responsiveness - All Firms were determined to have submitted a responsive proposal and subsequently approved for Selection Committee review/ranking.

Evaluation Process:

The Selection Committee held a public meeting on: December 16, 2022 @ 9:00am to discuss and rank the submitted qualifications pursuant to the evaluation criteria. Below you will find the scoring of the four (4) Firms based on the Selection Committee rankings during the December 16, 2022 Selection Committee Meeting

SELECTION COMMITTEE	Act Now Technologies	Flock Safety	Rekor Recognition	Vetted Security Solutions
Committee Member No. 1	60	65	90	75
Committee Member No. 2	30	50	75	95
Committee Member No. 3	50	65	75	75
TOTAL SCORE	140	180	240	245

Selection Committee Members:

Committee Member No. 1 – Captain Chad Fowler (Chair)
Committee Member No. 2 – CAO, Jason Nunemaker
Committee Member No. 3 – John Reilly

The City scheduled a meeting on February 1, 2022 with the highest ranked Firm (Vetted Security Solutions) to discuss the RFQ scope of services. Based upon the discussion, presentation of new information, and internal discussions, the City elected to re-evaluate qualifications pursuant to an amended scope of services. The re-evaluation was only afforded to the four (4) Firms that originally submitted qualifications. The four (4) Firms were allowed to submit qualifications pursuant to the amended scope of services or utilize the qualifications from the original RFQ. Following the 2-week submittal period, the City conducted an evaluation committee meeting to rank the Firms pursuant to the amended scope of services.

The top two (2) ranked Firms of the re-evaluation entered into a sixty-day pilot test study, where the product and service was monitored by four designated Plantation Police Department Officers. The designated Officers, based upon criteria issued in the amended scope of services, evaluated and scored each Firm with the maximum score allocation of 55 points. Upon completion of the sixty-day pilot test study, the City conducted an evaluation meeting on August 1, 2022, ranking the two (2) Firms pursuant to the pilot test study evaluation criteria. During the evaluation meeting, the designated officers were allowed to expound on the results of the pilot test study and their corresponding scores/justification. Selection Committee Members were also allowed to dialogue with the evaluators and amongst themselves on the results of the pilot test study.

Re-evaluation Results:

SELECTION COMMITTEE	Act Now Technologies	Flock Safety	Rekor Recognition	Vetted Security Solutions
Committee Member No. 1	60	70	95	75
Committee Member No. 2	55	81	93	83
Committee Member No. 3	65	70	94	80
TOTAL SCORE	180	221	282	238

Pilot Test Study Results:

PILOT TEST STUDY EVALUATORS	Rekor Recognition Systems	Vetted Security Solutions
Evaluator No. 1	52	36
Evaluator No. 2	48	41
Evaluator No. 3	43	36
Evaluator No. 4	52	40
Pilot Test Results Total	195	153

Evaluators:

Evaluator No. 1 – Officer Ryan McWilliams
 Evaluator No. 2 – Officer Adam Mund
 Evaluator No. 3 – Officer Brett O'Hara
 Evaluator No. 4 – Detective Miguel Lopez

Final Results:

Proposers	Rekor Recognition Systems	Vetted Security Solutions
Re-qualification	282	238
Pilot Scoring Average	48.5	38.25

Final Points (Re-qualification + Pilot Scoring Average)	330.5	276.25
Designation Number	1st	2nd

Based upon the foregoing information, the Selection Committee, Police, Administration, and Procurement Departments recommend authorization and approval of the following:

- Approval of the Selection Committee's scores, rankings and finding(s) relating to RFQ No.100-21.
- Approval of the Standardization of all City Automated License Plate Recognition System (ALPR) Solutions to Rekor Recognition Systems, Inc based on the procurement processes detailed in RFQ No. 100-21.
- Waive competitive bidding pursuant to Section 2-226(g)(14) of the City Code of Ordinances for the purchase of Automated License Plate Recognition (ALPR) System Solutions from Rekor Recognition Systems, Inc.
- Authorization and approval to waive competitive procurement processes identified in section(s) 2-226(b), and 2-226(c), and to request a pricing/quote(s) from Rekor Recognition Systems, Inc for Automated License Plate Recognition System (ALPR) Solutions on an as-needed basis. Adherence to City Code section 2-226(d) is still applicable, requiring City Council consideration for any purchase that exceeds \$35,000.00.

This item is now ready for City Council consideration.

Funding:

There is no financial impact for this item at this time.

Amount:

No pricing, rates(s) or cost(s) are associated with this authorization and approval.

Finance Director/Budget Manager Recommendation:

There is no financial impact for this item at this time.
